PROFILE SUMMARY

Highly motivated B. Tech Computer Science and Engineering student with a strong passion for Data Science, Machine Learning, and AI solutions. Proficient in various database management techniques and enthusiastic about full-stack development. Eager to leverage strong coding skills and a deep interest in technology to become a versatile Data Scientist and Full stack Developer.

EDUCATION

SCHOOLING

- SRI AUROBINDO INSTITUTE OF EDUCATION – ICSE – 94%
- SRI AUROBINDO INSTITUTE OF EDUCATION – ISC – 84%

UNIVERSITY

- NARULA INSTITUTE OF TECHNOLOGY – (AUTONOMOUS UNDER MAKAUT) – CGPA – 8.4

2022 – 2026

TILL 3RD YR.

INTERNSHIP EXPERIENCE

GLOBSYN TECHNOLOGIES – *student intern*; Sector V, Kolkata 700 091. *July 2024 – September 2024.*

- **Internship and project making on Data-Science & Machine Learning using Python.**

EUPHORIA GENX – *student intern*; Sector V, Kolkata 700 091.

June 2025 – Aug2025 Expected.

- **Internship and project making on AI & Machine Learning using Python deployment using Cloud technologies.**

PROJECTS

- **Data Science & Analytics Project Using ML [GitHub]**
EDA on Mobile Brand Sales Dataset and Selling price prediction using and evaluation of different ML algorithms.
- **Online Modern Library Management Project [Live Demo] [GitHub]**
Full stack development and deployment of a responsive online modern library management system using frontend and backend technologies and integration with cloud-based database for functionalities.
- **Smart Analytics Dashboard and Prediction Model (Project ongoing)**
Data visualization dashboard with interactive charts, real-time metrics, and comprehensive reporting capabilities for business intelligence, dataset tools, Smart Machine learning model with automation for prediction.

SKILLS

- **Communication Skills** in fluent English, and Native Languages.
- **Domains:** Data Analysis | Data Structures | Machine Learning | Full stack Development | Competitive Coding | Database Management System | Prompt Engineering.
- **Languages:** C | C++ | Python | Java | HTML | CSS | JavaScript | SQL | NoSQL (MongoDB) | SAP ABAP cloud Programming
- **Libraries:** NumPy | Pandas | Matplotlib | Seaborn | Data preprocessing | Scikit-Learn | Streamlit | Django Frameworks | React | Express | Node & more.
- **Proficient with** Jupiter Notebooks, SAP web Gui, GitHub, git, vscode, Linux (Debian), AI tools.

CERTIFICATES

- Responsive Website Development & Design Capstone, University of London, Coursera. [\[Certificate Link\]](#)
- Object-Oriented Data Structures in C++, University of Illinois, Coursera. [\[Certificate Link\]](#)
- Data Structures & performance University of California San Diego, Platform Coursera. [\[Certificate Link\]](#)
- Learning the Basics of ABAP Programming on SAP BTP, SAP University, Learning Hub [\[Certificate Link\]](#)
- [\[Certificate Link\]](#)
- Getting Started with Artificial Intelligence, IBM Skills Build. [\[Certificate Link\]](#)
- Soft-Computing Techniques IIT Kharagpur Elite Silver, NPTEL. [\[Certificate Link\]](#)
- 30hrs Hands on training on Django & MongoDB with project, Ardent Computech [\[Certificate Link\]](#)
- [\[Certificate Link\]](#)
